Work Experience

Frontend Developer Intern | Social Learning

Aug 2024 - Dec 2024

- Developed product search functionality and category filters for an e-commerce platform, enhancing user navigation.
- Implemented the login functionality, ensuring secure user authentication and contributing to a smoother user experience.
- Designed and created reusable, interactive components using **Vue 3** and **Tailwind CSS**, achieving approximately **75% reusability** across different sections of the application, ensuring scalable and consistent design.
- Streamlined backend integration with **RESTful APIs**, reducing loading times by approximately **14%** in the process.
- Applied **UX/UI** principles to optimize interface accessibility, leading to an estimated **18%** increase in user satisfaction based on internal feedback.
- Collaborated with a cross-functional **Agile SCRUM** team, delivering sprint goals on time and ensuring **code quality** and **best practices**, earning **recognition from my tutor** for consistently meeting tasks and adapting quickly to new challenges.

Technical Skills

- **Languages:** JavaScript, TypeScript, HTML5, CSS.
- **Libraries/Frameworks:** React.js, Next.js, Prisma, Tailwind CSS, Framer-Motion.
- **Developer Tools:** Postman, GIT, Supabase, Jira.
